

## Dr. Robert Lofton Memorial Thoughts

Dr. Lofton was a highly respected veterinarian in Opelika, Alabama. He dedicated his life to caring for animals and providing top-notch veterinary care. Not only was he passionate about his work, but he also had a strong sense of community involvement. He taught Sunday School at a local church, sharing his wisdom and values with others. Additionally, he served on the Opelika City Council, actively participating in shaping the future of the city. Dr. Lofton's impact extended far beyond his veterinary practice, touching the lives of both animals and people in the community. His passing is a great loss, and his legacy will always be remembered. Robert was a strong supporter and advocate for affordable housing for hardworking families; He believed in the mission of Habitat in which, "together we'll build homes, community, and hope." Thank you, Lela Lofton and his family, for the generous memorial gift to honor his legacy.
